

Holster Klein

Art no 1101-1

One of the many companies that use our holster is the Swedish based company Larm Assistans who is a surveillance company authorized by the Swedish Government and the Swedish Police. They are specialised in call-outs, surveillance and supervision and they have always been searching for a small, versatile and portable fire extinguisher - until now.

Our holster is equipped with both a metal ring and an opening for a belt on the back. The metal ring is intended for guard belts that are equipped with snaplinks so you can both attach and detach the holster in just a couple of seconds. The belt opening on the back is intended for belts with a maximum width of 6 or 9 cm (it is possible to open the loop and change the size).

With MAUS Xtin Klein in the belt professional groups such as electricians, carpenters, roofers, security guards, janitors etc will have access to a fire extinguisher that is not only very accessible and powerful, but can also save lives and a lot of money. It's not the size of the fire extinguisher that determines whether you will be successful at putting out. The key is how fast you respond. With MAUS Xtin Klein in your belt you will be able to act within seconds.

SPECIFICATIONS:

HOLSTER Klein:	Holster
Article number:	1101-1
EAN / Barcode	7350015530027
Dimensions:	L 250 mm ø 70 mm
Weight:	89 g
Material:	Nylon Oxford
Packaging:	Carton box
No. of units in outer box:	20
